03**Schedule A-1 • Partner Formulary**

All 692 items & Provider Cost

04**Provider Account Setup**

Separate form in your envelope

AT A GLANCE

A partnership built on clear roles and fair terms.

This summary is here to help you read the Agreement quickly. The full terms that follow control.

01

Clear roles

We compound and dispense patient-specific prescriptions for your patients. You keep clinical responsibility; we keep pharmacy responsibility.

02

Formulary pricing

You pay the Provider Cost shown in the MediCraft Partner Formulary. We hold it and give notice before any increase. Compounded medication is self-pay.

03

Fair fixes

When a mistake is ours, we fix it at our cost. When it is outside our control, we share the problem rather than pointing at a clause.

04

No lock-in

No minimum orders, no exclusivity, no termination fee. Either of us can end this with 30 days' written notice.

KEY TERMS

Term 1 year, auto-renews	Notice to end 30 days	Minimum orders None	Termination fee None
Pricing Partner Formulary	Billing Self-pay only	Exclusivity None	Governing law Florida

This Master Service Agreement (this "**Agreement**") is entered into as of the Effective Date by and between the parties below. The **Effective Date** is the date on which the last party signs, as recorded on the electronic signature certificate.

THE PARTIES

Pharmacy ("MediCraft," "we," "us")	MediCraft Precision LLC, d/b/a MediCraft Pharmacy
Pharmacy address	12320 Race Track Rd, Tampa, FL 33626
Client legal name ("Client," "you")	
State of formation and entity type	
Client address	
Client primary contact and title	

MediCraft is a licensed pharmacy compounding under section 503A of the Federal Food, Drug, and Cosmetic Act. Client is a health care practice or clinic whose prescribers issue prescriptions for their own patients.

01 What MediCraft Will Do

- 1.1 Services.** We will review, compound, label, dispense, and ship patient-specific prescriptions submitted by your prescribers, using our own licensed facility and personnel, for the preparations listed in the MediCraft Partner Formulary and any additions made under Exhibit B. We will perform prescription verification, drug utilization review, and patient counseling as our professional obligations require.
- 1.2 Standards.** We will compound in accordance with USP <795>, <797>, and <800>, applicable Florida Board of Pharmacy rules, and the law of each state into which we are authorized to ship. We will maintain the licenses, registrations, and permits our operations require for as long as this Agreement is in effect.
- 1.3 Turnaround.** Orders received by 4:00 PM ET on a business day will be processed the same business day, subject to clinical review, ingredient availability, and matters outside our reasonable control. For the first 3 days after onboarding or the introduction of a new formulation, that cutoff will not apply while prescribing and dispensing are standardized.
- 1.4 Cold chain and tracking.** Preparations marked for cold shipping in the Partner Formulary ship in validated refrigerated packaging appropriate to the destination and season. Tracking information is sent automatically to the contacts you designate.
- 1.5 Access to a pharmacist.** A licensed pharmacist is reachable at (727) 309-6666 during business hours, and at (727) 309-6666 after hours for urgent clinical, quality, or recall matters.
- 1.6 Notice of problems.** We will tell you promptly if a preparation is delayed, backordered, discontinued, or reformulated, or if we decline an order, and we will tell you why.
- 1.7 Independent professional judgment.** Our pharmacists retain independent professional judgment. We may contact the prescriber, request clarification or documentation, propose a clinically equivalent base or vehicle, or decline to fill an order where patient safety, formulation integrity, or law requires. Declining an order is not a breach of this Agreement.

02 What Client Will Do

- 2.1 Valid prescriptions.** You will submit only valid, patient-specific prescriptions issued by a prescriber who is licensed and authorized to prescribe in the state where the patient is located, within a valid practitioner-patient relationship, for a legitimate medical purpose, in the usual course of professional practice.
- 2.2 Clinical responsibility.** Your prescribers remain solely responsible for patient screening, diagnosis, informed consent, prescribing decisions, dose selection, laboratory monitoring, and follow-up. We do not practice medicine and do not direct or review clinical decision-making.
- 2.3 Credentials.** You will provide and keep current, for each prescriber, license and registration information and any supervisory or collaborative agreement your state requires, and will notify us in writing within 3 days of any lapse, restriction, suspension, surrender, or adverse action. You authorize us to verify this information through official sources at onboarding and on a continuing basis.

- 2.4 Patient-specific use only.** Medication dispensed under this Agreement is for the named patient only. You will not use it as office stock, relabel it, resell it, transfer it, pool it, or administer it to another patient. Compounding for in-office administration ("office use"), where state law permits it, requires a separate written office-use addendum.
- 2.5 Accurate information.** Information you give us, including in the Provider Account Setup form (prescriber data, patient addresses, order data, and billing contacts), will be true, accurate, complete, and not misleading, and you will keep it current.
- 2.6 Prescriber network.** If prescriptions are submitted to us by third-party prescribers engaged by or affiliated with you, you are responsible for those prescriptions and for the resulting charges as if issued by your own personnel, and you will not continue to engage any prescriber you reasonably suspect of unlawful, unethical, or abusive prescribing.
- 2.7 Account access.** Each authorized user will hold individual credentials. You will remove access for departing personnel promptly and report any suspected compromise. Only a licensed prescriber may hold prescribing access.

03 Prescriptions We Cannot Fill

Listing in the Partner Formulary does not override this Section. We will not fill:

- Anything that is essentially a copy of a commercially available drug product, except as the law permits and where you have documented the patient-specific clinical difference.
- Any product on the FDA withdrawn-or-removed list, or any drug or bulk substance otherwise prohibited for 503A compounding.
- Orders for office stock, resale, or distribution, and orders lacking a patient identity.
- Controlled substances (shown with a DEA schedule in the Partner Formulary), unless the prescriber holds a current DEA registration and any required state registration and the prescription complies with federal and state telemedicine, electronic prescribing, and monitoring-program requirements.
- Prescriptions for patients located in a state where we are not licensed or registered to dispense. We will confirm our authorized states during onboarding and notify you of changes.

04 Pricing, Invoicing, and Payment

- 4.1 Pricing.** Pricing and payment terms are set out in Exhibit A, which incorporates the Provider Cost column of the MediCraft Partner Formulary (attached as Schedule A-1) in effect on the pricing effective date. Items shown as "Quote" in the Partner Formulary, and custom or non-formulary preparations, are priced by written quote or change order. We bill the price in effect when the prescription order is received. We will hold Exhibit A pricing for 180 days from the Effective Date and give you at least 7 days' written notice before any increase takes effect. Prices for commercially available drug products may move with market cost, and we will tell you when they do.

- 4.2 Self-pay only.** Compounded preparations dispensed under this Agreement are not covered by, and will not be submitted to, Medicare, Medicaid, TRICARE, or any commercial payer. You will not submit or cause the submission of claims for them, and you will not represent to patients that they are reimbursable.
- 4.3 Payment method.** Payment is due at or before shipment unless invoice terms are approved in Exhibit A. You authorize us to charge the payment method on file for approved orders, shipping, taxes, and agreed fees until you revoke that authorization in writing. Revocation does not affect amounts already incurred. Card and bank details are captured through a secure link held by a PCI-compliant processor; we do not receive or store full account numbers.
- 4.4 Declines and past-due amounts.** If a payment method declines or expires, pending orders hold until payment clears. Where invoice terms apply, amounts more than 30 days past due may accrue a late charge of 3% per month (or the maximum the law allows, if lower) and may pause new orders until the balance is current. We will contact you before pausing anything.
- 4.5 Billing questions.** Tell us within 7 days of an invoice or charge if something looks wrong, identifying the order and the amount, and we will work it out with you directly. Please use that process rather than a card chargeback; undisputed amounts remain payable while we look into the rest.
- 4.6 Taxes.** You are responsible for sales, use, and similar taxes on amounts payable under this Agreement, other than taxes on our income.

05 Cancellations

- 5.1 Formulary items.** An order for a Partner Formulary item may be cancelled within 24 hours of submission, or before it enters final verification, whichever comes first.
- 5.2 Custom and non-formulary compounds.** Once compounding begins, a patient-specific custom preparation cannot be cancelled, because it is made for one patient and cannot be reassigned or returned to stock. We will tell you at order entry which category a product falls into.
- 5.3 How to cancel.** Send cancellation requests through your Slack channel. We will use reasonable efforts to locate and stop the order promptly and will confirm the outcome either way.

06 Shipping, Delivery, and Reshipment

We split responsibility the same way every time, so nobody has to argue about it.

MEDICRAFT RESHIPS AT OUR COST WHEN	CLIENT IS RESPONSIBLE WHEN	WE WORK IT OUT TOGETHER WHEN
- We sent the wrong drug, strength, or form - An item or supply on the prescription was missing - We shipped to the wrong address - The product arrived damaged or defective - A cold-ship item was outside range on arrival - Dating on arrival is shorter than Section 7 allows	- The address given to us was wrong or incomplete - The patient or clinic refused or failed to accept delivery - A package was lost or stolen after confirmed delivery to the correct address - Signature was waived and the carrier confirmed delivery - Storage after delivery was outside labeled conditions	- A carrier delay spoils a shipment through nobody's fault: you can choose to wait for the carrier claim or pay for an early reship - Weather or a regional event disrupts delivery - Anything else not listed: we split or absorb it case by case, and we will not hide behind this table

- 6.1 Claim window.** Report anything missing, damaged, incorrect, tampered with, or temperature-concerned within 24 hours of delivery through your Slack channel, with photographs of the product and packaging. Keep the product, label, box, insulation, and coolant until we finish our review; the carrier requires them for a claim. Reports outside the window will still be reviewed, but we may be unable to recover from the carrier.
- 6.2 Returns.** Prescription medication cannot be returned to pharmacy stock once it leaves our custody. Where a refund, credit, or replacement is not required by law, we will still review the circumstances and make it right where it is fair to do so.
- 6.3 Address changes.** Reroutes and address corrections after shipment may incur carrier fees, which we pass through at cost.

07 Beyond-Use Dating and Storage

Compounded preparations carry a beyond-use date (BUD) assigned under USP standards rather than a manufacturer expiration date. The date runs from the date of compounding, and release testing, fulfillment, and transit consume part of it. Please prescribe quantities the patient can reasonably use within the labeled window. The product-level BUD shown in the Partner Formulary is a reference; dating on the label always governs. Ask us before writing an extended supply and we will tell you what dating that formulation will carry.

PREPARATION TYPE (PER PARTNER FORMULARY)	TYPICAL BUD AND STORAGE	SUGGESTED MAXIMUM PER ORDER	MINIMUM DATING ON ARRIVAL
Oral solids: capsules, troches, ODTs	180 days, room temperature	300 each	170 days

PREPARATION TYPE (PER PARTNER FORMULARY)	TYPICAL BUD AND STORAGE	SUGGESTED MAXIMUM PER ORDER	MINIMUM DATING ON ARRIVAL
Sublingual drops	90 days, room temperature	120 mL	80 days
Topicals: creams, gels, foams, solutions	30 to 90 days, room temperature (product-specific)	240 g	80 days
Nasal sprays	35 days, refrigerated	120 mL	30 days
Sterile multi-dose vials (USP <797>)	60 days room temperature • 90 days refrigerated • 120 days frozen	4 vials	70 days
Commercially manufactured products	Manufacturer expiration date	n/a	Per manufacturer expiration date

08 Safety, Complaints, and Recalls

- 8.1 Reporting.** Report adverse events, medication errors, quality or sterility concerns, suspected tampering, and loss, theft, or diversion as soon as you become aware, through your Slack channel. Serious or unexpected adverse events should reach us within 24 hours. Treat the patient first; report second.
- 8.2 Administration records.** Where a compounded preparation is administered in your office, record the drug name, lot number, and beyond-use date in the patient chart or medication administration record so affected patients can be identified quickly.
- 8.3 Recalls.** If we issue a recall or product notice, you will stop use and distribution, quarantine affected product, help identify affected patients, assist with notification as directed, document return or destruction, and return the acknowledgment within the time stated in the notice. We handle regulatory reporting and carry the cost of the recall itself.
- 8.4 Regulatory cooperation.** Each of us will cooperate reasonably with the other's inspections, audits, and board inquiries that relate to shared activity, and will give prompt notice of any inquiry that names the other party.

09 Privacy and Data

- 9.1 HIPAA.** Each party is an independent covered entity and will comply with HIPAA, HITECH, and applicable state privacy law for the protected health information it handles. A pharmacy dispensing on a prescription for treatment purposes does not act as the prescriber's business associate; if your counsel prefers a business associate agreement, we will sign a reasonable one and it will control over this Section to the extent of any conflict.
- 9.2 Secure exchange.** PHI will be exchanged only through approved secure methods. You are responsible for the security of your own devices, accounts, and personnel access.

- 9.3 Breach notice.** Each party will notify the other without unreasonable delay, and in any event within 1 day, of a breach of unsecured PHI affecting the other party's patients or records.
- 9.4 Communications and electronic signature.** You consent to receive operational communications (order status, clinical clarifications, safety notices, recalls, and account notices) by email, phone, portal, and fax at the contacts you provide. Marketing communications are separate and may be declined at any time without affecting your account. Each party consents to electronic records and signatures, including through DocuSign or a similar platform, under the federal E-SIGN Act and applicable state law.

10 Compliance and Fair Dealing

- 10.1 No remuneration for referrals.** Neither party has offered, solicited, paid, or received anything of value in exchange for referrals, prescribing, or the purchase or recommendation of any product or service. Each party will comply with the federal Anti-Kickback Statute, the Eliminating Kickbacks in Recovery Act, the Stark Law, and Florida's patient brokering and fee-splitting statutes.
- 10.2 Fair market value.** Amounts payable under this Agreement reflect fair market value for the products and services provided and are not determined by the volume or value of referrals or other business generated between the parties.
- 10.3 No excluded persons.** Neither party, nor any of its owners, officers, or prescribing personnel, is excluded, debarred, or suspended from participation in any federal or state health care program. Each party will notify the other promptly if that changes.
- 10.4 Marketing and use of names.** Neither party will use the other's name, logo, formulations, pricing, or materials, including the Partner Formulary, in advertising or patient-facing content without prior written approval, and neither will make claims about compounded preparations beyond what the approved materials support.
- 10.5 Records.** Each party will maintain records relating to prescriptions, orders, and this Agreement for the period its own law requires, and no less than 3 years.

11 Confidentiality

Each party will use the other's commercial, technical, and financial information disclosed under this Agreement only for purposes of this Agreement, will protect it with at least the care it uses for its own confidential information, and will not disclose it to third parties without consent. This does not apply to information that is public through no breach of this Section, received lawfully from a third party, already in the recipient's possession, or independently developed. Disclosure compelled by law, regulation, subpoena, or a regulator is permitted, with prior notice to the other party where legally permissible. Pricing under Exhibit A, including Provider Cost in the Partner Formulary, is confidential. This Section survives termination for 3 years, and indefinitely for PHI and trade secrets. Nothing in this Agreement restricts either party from reporting a concern to a regulator, and neither party is subject to any non-disparagement obligation.

12 Insurance

Each party will maintain, at its own expense and with financially sound insurers, general liability and professional liability coverage appropriate to its operations, with limits of not less than \$1,000,000 per claim and \$3,000,000 in the aggregate. On request, each party will provide a certificate of insurance and will give the other 7 days' written notice of cancellation or material reduction in coverage.

13 Mutual Indemnification

- 13.1 By Client.** You will indemnify, defend, and hold harmless MediCraft and its owners, officers, employees, and agents from third-party claims, losses, damages, penalties, and reasonable attorneys' fees arising out of (a) your breach of this Agreement, (b) any prescribing, diagnostic, or clinical decision by you or your prescribers, (c) your handling, storage, relabeling, administration, or transfer of medication after delivery, or (d) information you gave us that was inaccurate or incomplete, except to the extent caused by our own negligence or breach.
- 13.2 By MediCraft.** We will indemnify, defend, and hold harmless Client and its owners, officers, employees, and agents from third-party claims, losses, damages, penalties, and reasonable attorneys' fees arising out of (a) our breach of this Agreement, (b) a compounding, labeling, dispensing, or quality error by us, or (c) our violation of applicable pharmacy law, except to the extent caused by your own negligence or breach.
- 13.3 Procedure.** The party seeking indemnity will give prompt written notice, allow the indemnifying party to control the defense with counsel of its choosing, and cooperate reasonably. No settlement that imposes an obligation on or admits fault by the other party may be made without that party's written consent.

14 Limitation of Liability

Except for the exclusions below, neither party is liable to the other for lost profits, lost revenue, lost data, or indirect, incidental, special, consequential, exemplary, or punitive damages, however arising, and each party's total aggregate liability arising out of this Agreement will not exceed the total amounts paid or payable by Client to MediCraft in the twelve months preceding the event giving rise to the claim.

These limits do not apply to: personal injury or death; a party's indemnification obligations under Section 13; breach of confidentiality or of privacy law; gross negligence, willful misconduct, or fraud; or Client's obligation to pay amounts due. Except as expressly stated in this Agreement, and without limiting our obligations under law, MediCraft makes no other warranties, and implied warranties of merchantability and fitness for a particular purpose are disclaimed.

This limitation is mutual and is a material part of the pricing in Exhibit A. It does not limit any right a patient may have.

15 Term, Suspension, and Termination

- 15.1 Term.** This Agreement begins on the Effective Date and continues for one year, then renews automatically for successive one-year terms until terminated. There is no minimum order commitment, no exclusivity, and no termination fee.
- 15.2 Termination for convenience.** Either party may terminate on thirty days' written notice. Prescriptions already accepted will be completed unless you tell us otherwise.
- 15.3 Termination for cause.** Either party may terminate immediately on written notice if the other (a) materially breaches and fails to cure within thirty days of notice, (b) fails to pay an undisputed amount within ten days of notice, (c) becomes insolvent or subject to a bankruptcy proceeding not dismissed within forty-five days, or (d) loses a license, registration, or authorization necessary to perform.
- 15.4 Suspension.** We may pause an affected service (a single prescriber, a single state, or the account) where credentials lapse, a verification issue arises, an undisputed balance is past due, or patient safety or compliance requires it. We will tell you what happened, what resolves it, and restore service when it is resolved.
- 15.5 Re-verification.** We re-verify prescriber credentials at least annually and at each license or registration expiration. Accounts with no ordering activity for 12 months may be deactivated and require re-verification to reopen.
- 15.6 Effect of termination.** Amounts owed become due on the effective date of termination. Each party's recordkeeping, confidentiality, indemnification, privacy, and limitation-of-liability obligations survive, along with Sections 4, 8, 9, 10, 11, 13, 14, and 16.

16 General

- 16.1 Relationship.** The parties are independent contractors. Nothing here creates an agency, partnership, joint venture, employment, or fee-sharing relationship, and neither party may bind the other.
- 16.2 Changes to these terms.** We may update operational terms on 7days' written notice, applying to orders placed after the notice period. Changes to Sections 13, 14, or 15 require a signed amendment. If you object to an operational change, you may terminate under Section 15.2 without penalty.
- 16.3 Change orders.** New products, services, or pricing are added using the Change Order form in Exhibit B. No pricing change takes effect without a signed change order or amendment. An updated edition of the Partner Formulary takes effect for your account only with the notice required by Section 4.1.
- 16.4 Force majeure.** Neither party is liable for a delay or failure caused by events beyond its reasonable control (natural disaster, hurricane, fire, epidemic, war, civil unrest, government action, embargo, labor disruption, utility or telecommunications failure, or ingredient or supply unavailability) other than the obligation to pay amounts due. The affected party will give notice and resume performance as soon as practicable.
- 16.5 Assignment.** Neither party may assign this Agreement without the other's written consent, which will not be unreasonably withheld, except to an affiliate or to a successor of substantially all of its assets or equity.

- 16.6 Notices.** Notices must be in writing and are effective on hand delivery, on receipt by overnight courier, on the date sent by email during the recipient's business hours (next business day if after), or five days after certified mail, to the addresses on the signature page.
- 16.7 Governing law and venue.** Florida law governs, without regard to conflict-of-law principles. Before filing suit, the parties will attempt to resolve any dispute through a good-faith discussion between senior representatives within thirty days of written notice, and then non-binding mediation in Hillsborough County. Any action may be brought in the state or federal courts serving Hillsborough County, Florida, and each party consents to that jurisdiction. The prevailing party in any action to enforce this Agreement is entitled to reasonable attorneys' fees and costs at all levels.
- 16.8 Severability, waiver, and entire agreement.** If a provision is unenforceable, the rest remains in effect. A waiver is effective only in writing and only for the instance given. This Agreement, with its exhibits, is the entire agreement on this subject and supersedes prior discussions and documents. It may be signed in counterparts, and an electronic or scanned signature has the same effect as an original.
- 16.9 Order of precedence.** If there is a conflict, a signed amendment controls over a signed change order, which controls over Exhibit A (including the Partner Formulary it incorporates), which controls over the body of this Agreement, which controls over the Provider Account Setup form and any other onboarding document.

EXECUTION

Signatures

Client signs first; MediCraft countersigns. The Effective Date is the date of the last signature.

Each person signing below represents that they are authorized to bind the party for which they sign, and that the party has read and agrees to this Agreement and its exhibits.

ABOUT MEDICRAFT

Crafting health, backed by science.

MediCraft Pharmacy brings a precise, modern, and human approach to compounded medicine. Each preparation is made, not just dispensed: formulated with intention, skill, and care around the individual prescription.

01

Precision

Clear strengths, dosage forms, and packaging, compounded to the exact dosage requirements of each prescription.

02

Personalization

A broad compounded formulary spanning oral, topical, sublingual, intranasal, and injectable forms to support individualized therapy.

03

Partnership

A provider-facing reference built for efficient clinical and operational review, with pharmacist support behind every order.

REFERENCE

How to read this formulary.

Each row is one orderable preparation. Products with multiple strengths are listed consecutively; rows alternate in shading for easy reading across the page.

Product	Preparation name, followed by its class: COMPOUNDED NON-COMPOUNDED SUPPLY
Form / Route	Dosage form (capsule, troche, vial, cream...) with route of administration beneath.
Strength	Active ingredient strength(s), listed in the same order as the ingredients in the product name.
Package	Unit of sale: "Each" (per capsule, troche, or dose), fill volume, or pack size.
Rx / DEA	Dispensing status. Controlled substances show their schedule: C-III C-IV C-V
BUD	Beyond-use date and storage condition (RT = room temperature). Sterile vials list room, refrigerated, and frozen dating per USP <797> . "Mfr. expiry" follows the manufacturer's labeled date.
Cold	❄ Cold indicates the product ships refrigerated.
Provider cost	Provider pricing per unit of sale. Quote means pricing is available on request. All pricing is confirmed at ordering.

Important information

Compounded medications are not FDA-approved. They are prepared pursuant to a valid, patient-specific prescription from a licensed practitioner and have not been evaluated by the FDA for safety, effectiveness, or quality. This formulary is intended for licensed healthcare professionals only. Product availability, formulations, and pricing are subject to change and pharmacy confirmation.
